

USA Test Prep & Single Sign-On Using the Student Resource Dashboard

The Student Resource Dashboard (aka EJCHS Student Portal) should open automatically when students log into a Chromebook. However, if this page does not open for students, they can access it via the [school's website](#) (see below).

Step 1:

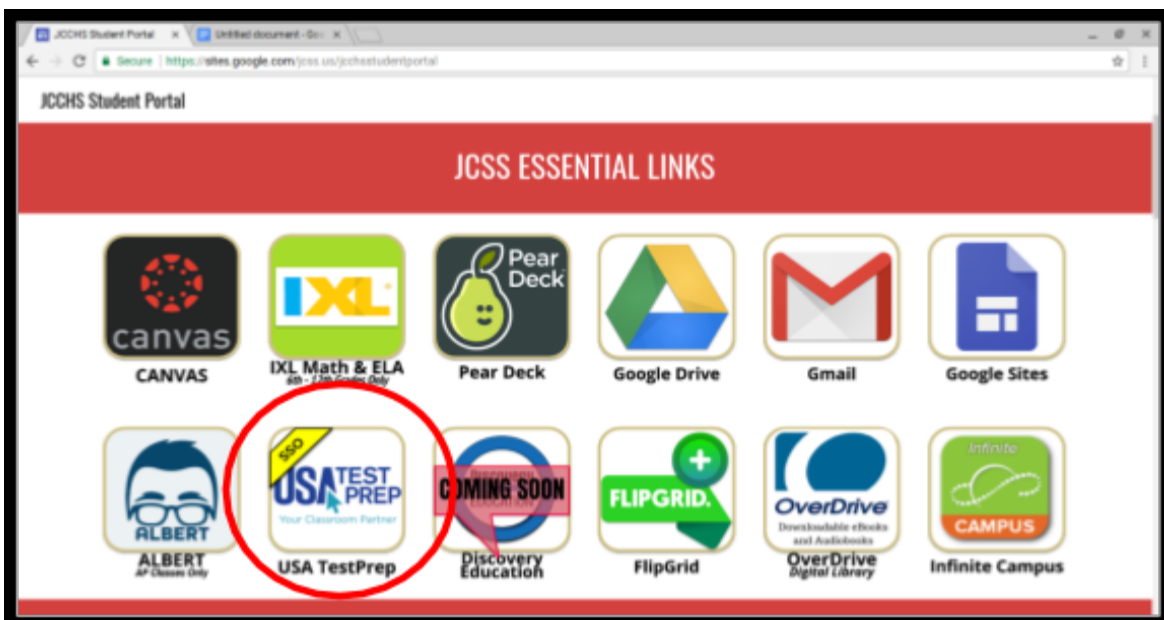

Click Student Resource Dashboard link under the EJCHS Students links area on the school website. *Skip to Step 2 if the Student Resource Dashboard opened automatically.*

The direct link to the EJCHS Student Resource Dashboard is <https://sites.google.com/jcss.us/ejchsstudentportal>. Students may access it from anywhere, any browser, whether on campus or not. Feel free to encourage them to bookmark the site address.

Step 2:

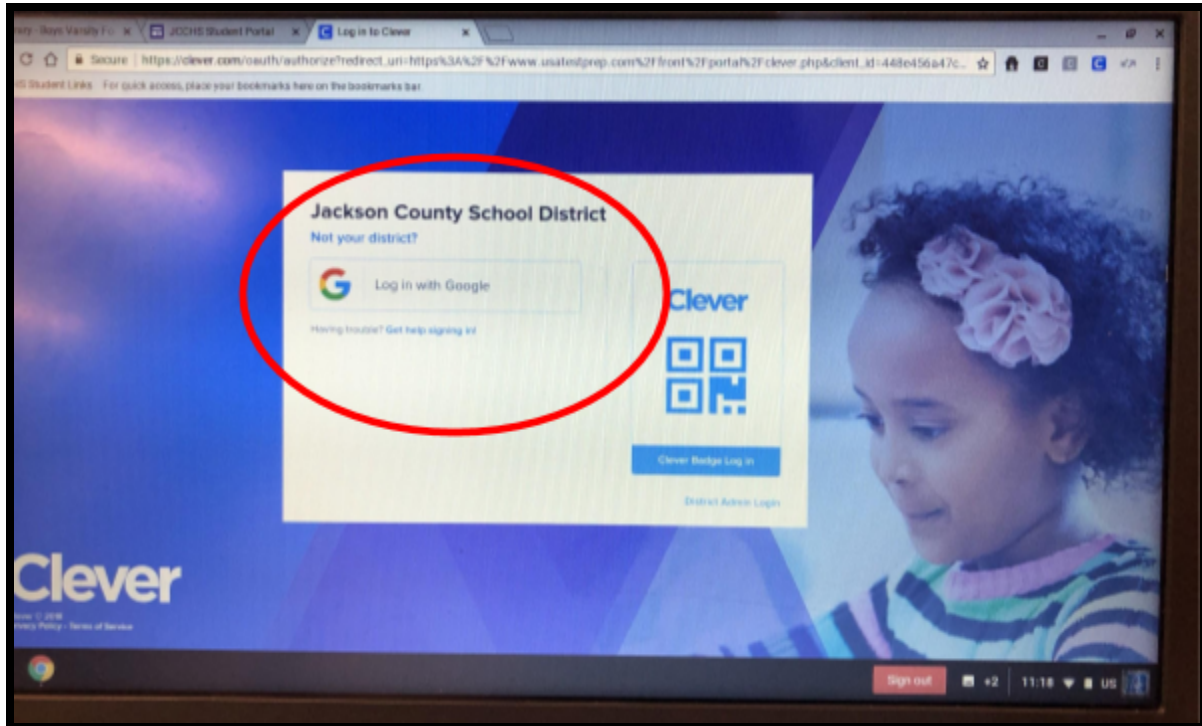

From the Student Resource Dashboard, students should click the icon for USA Test Prep.

USA Test Prep & Single Sign-On Using the Student Resource Dashboard

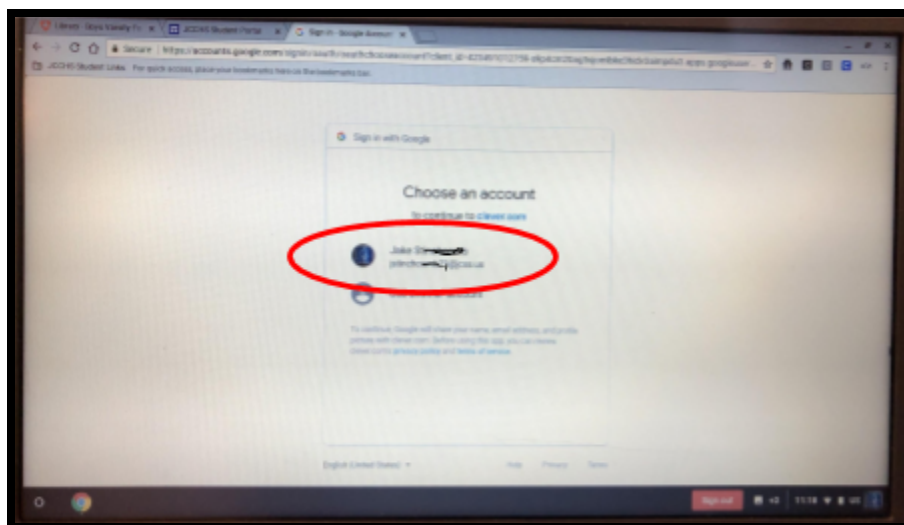

Step 3:

Students will be prompted to “Login with Google” on the Clever page. (*Clever is the product that runs our single sign on accounts*).

Step 4:

Student must select their *JCSS Google account*. This authentication process should allow them to sign on to USA Test Prep without having to enter a different username and password.

Students can use USA Test Prep as a review for many courses offered at EJCHS.
